De monnik die zijn Ferrari verkocht Robin Sharma 2020-04-25 Een fascinerend verhaal vol wijze levenslessen en een genot om te lezen. -

Paulo Coelho, auteur van *De alchemist* De monnik die zijn Ferrari verkocht is het verhaal van Julian Mantle, een geslaagd advocaat, die door zijn enerverende maar onevenwichtige leven een bijna noodlottige hartaanval krijgt. Geconfronteerd met zijn fysieke broosheid maakt Julian een spirituele crisis door die hem noopt op zoek te gaan naar de antwoorden op de grote vragen van het leven. Hij besluit radicaal te breken met zijn luxe maar oppervlakkige bestaan en waagt zich op een buitengewone odyssee naar een eeuwenoude cultuur in de Himalaya. Daar vindt hij een krachtig systeem dat de mens in staat stelt om de potentie van geest, lichaam en ziel ten volle te ontplooiën en intenser, gelukkiger en harmonieuzer te leven. De monnik die zijn Ferrari verkocht is een inspirerende vertelling, waarin de tijdloze spirituele wijsheid van het Oosten wordt vermengd met messcherpe zakelijkheid van het Westen. Een boek dat u stap voor stap de weg wijst naar een leven met meer moed, evenwicht, vreugde en innerlijke rijkdom. Annual Institute on Telecommunications Policy and Regulation 2001

Multilingual Youth Practices in Computer Mediated Communication Cecelia Cutler

2018-09-30 With an eye to the playful, reflexive, self-conscious ways in which global youth engage with each other online, this volume analyzes user-generated data from these interactions to show how communication technologies and multilingual resources are deployed to project

local as well as trans-local orientations. With examples from a range of multilingual settings, each author explores how youth exploit the creative, heteroglossic potential of their linguistic repertoires, from rudimentary attempts to engage with others in a second language to hybrid multilingual practices. Often, their linguistic, orthographic, and stylistic choices challenge linguistic purity and prescriptive correctness, yet, in other cases, their utterances constitute language policing, linking 'standardness' or 'correctness' to piety, trans-local affiliation, or national belonging. Written for advanced undergraduates, postgraduates and researchers in linguistics, applied linguistics, education and media and communication studies, this volume is a timely and readymade resource for researching online multilingualism with a range of methodologies and perspectives.
