[Writing for Social Scientists](#) Howard S. Becker 2020-09-01 For more than thirty years, Writing for Social Scientists has been a lifeboat for writers in all fields, from beginning students to published authors. It starts with a powerful reassurance: Academic writing is stressful, and even accomplished scholars like sociologist Howard S. Becker struggle with it. And it provides a clear solution: In order to learn how to write, take a deep breath and then begin writing. Revise. Repeat. This is not a book about sociological writing. Instead, Becker applies his sociologist's eye to some of the common problems all academic writers face, including trying to get it right the first time, failing, and therefore not writing at all; getting caught up in the trappings of "proper" academic writing; writing to impress rather than communicate with readers; and struggling with the when and how of citations. He then offers concrete advice, based on his own experiences and those of his students and colleagues, for overcoming these obstacles and gaining confidence as a writer. While the underlying challenges of writing have remained the same since the book first appeared, the context in which academic writers work has changed dramatically, thanks to rapid changes in technology and ever greater institutional pressures. This new edition has been updated throughout to reflect these changes, offering a new generation of scholars and students encouragement to write about society or any other scholarly topic clearly and persuasively. As Becker writes in the new preface, "Nothing prepared me for the steady stream of mail from readers who found the book helpful. Not just helpful. Several told me the book had saved their lives; less a testimony to the book as therapy than a reflection of the seriousness of the trouble writing failure could get people into." As academics are being called on to write more often, in more formats, the experienced, rational advice in Writing for Social Scientists will be an important resource for any writer's shelf.

Economical Writing, Third Edition Deirdre N. McCloskey 2019-05-17 Economics is not a field that is known for good writing. Charts, yes. Sparkling prose, no. Except, that is, when it comes to Deirdre Nansen McCloskey. Her conversational and witty yet always clear style is a hallmark of her classic works of economic history, enlivening the dismal science and engaging readers well beyond the discipline. And now she's here to share the secrets of how it's done. Economical Writing is itself economical: a collection of thirty-five pithy rules for making your

writing clear, concise, and effective. Proceeding from big-picture ideas to concrete strategies for improvement at the level of the paragraph, sentence, or word, McCloskey shows us that good writing, after all, is not just a matter of taste—it's a product of adept intuition and a rigorous revision process. Debunking stale rules, warning us that "footnotes are nests for pedants," and offering an arsenal of readily applicable tools and methods, she shows writers of all levels of experience how to rethink the way they approach their work, and gives them the knowledge to turn mediocre prose into magic. At once efficient and digestible, hilarious and provocative, Economical Writing lives up to its promise. With McCloskey as our guide, it's impossible not to see how any piece of writing—on economics or any other subject—can be a pleasure to read.

Heart of Darkness - Ed. Goonetilleke - Third Edition Joseph Conrad 2020-07-21 The first incarnation of this Broadview edition of Heart of Darkness appeared in 1995, the second in 1999; both were widely acclaimed, and the Goonetilleke Heart of Darkness remained for many years one of Broadview's best-selling titles. For the third edition the book has been completely revised and updated to take account of the scholarship of the most recent generation. The introduction has been extensively rewritten, and the appendices of contextual materials thoroughly overhauled. The two previous editions of the Goonetilleke Heart of Darkness included a substantial selection of documents on the history of Benin, ranging from excerpts taken from Olaudah Equiano's eighteenth-century narrative to documents concerning the Benin massacre of 1897. Those documents concerning a neighboring Bantu society were included in large part because of the paucity of known late nineteenth-century documents concerning the Congo by black Africans—or indeed by black observers of any nationality. In place of those Benin-related materials, this new edition includes substantial excerpts from George Washington Williams's Letter to Leopold II, as well as substantial excerpts from an extraordinary document not included in any other edition of Heart of Darkness (but discussed extensively in

two ground-breaking twenty-first century works of scholarship, David Van Reybrouck's Congo: The Epic History of a People and Maya Jasanoff's The Dawn Watch: Joseph Conrad in a Global World): the autobiography of Disasi Makulo. Makulo grew up near the shore of the Congo River in the 1880s and early 1890s, was enslaved by notorious ivory dealer Tippu Tip, and then was taken under the wing of Henry Morton Stanley. Makulo's account—substantial excerpts of which are here translated into English for the first time—opens an unprecedented window on life in the equatorial forest of the Congo in the late nineteenth century.
