Summary: The Freedom Agenda BusinessNews Publishing 2017-01-30 The must-read summary of Mike Lee's book: "The Freedom Agenda: Why a Balanced Budget Amendment is Necessary to Restore Constitutional Government". This complete summary of "The Freedom Agenda" by Mike Lee, a prominent American politician, presents his examination of US national debt and its implications: inflation, stagnation, and potential insolvency. He argues that the only solution to this crisis is to pass an amendment to the Constitution which will require the federal government to pass a balanced budget every year. Added-value of this summary: • Save time • Understand the implications of American national debt • Expand your knowledge of American budgets and economics To learn more, read "The Freedom Agenda" and discover how national debt can impact civil liberty and the economy.

Mexican Tyranny and the Catholic Church Michael Joseph Curley

(Archbishop of Baltimore) 1926

From Liberty to Tyranny Abraham L. Thornton 2012-06-01 From Liberty to Tyranny is a look at key events in United States history, and how they have resulted in an expansion of centralized authority and a reduction in individual liberty. From the founding generation through the Obama administration, key historical periods are dissected, including: Westward Expansion and Manifest Destiny The Civil War and Reconstruction The Progressive Era The New Deal The modern welfare and warfare states Filled with quotations, primary source references, and analysis, From Liberty to Tyranny attempts to demonstrate that liberty has been on the decline from America's outset, and is not the result of a particular party, or the curse of a particular generation. It also offers a number of suggestions for ways to increase liberty by undoing some of the mistakes of the past.

The Cambridge Companion to Isaiah Berlin Joshua Cherniss 2018-10-04 Isaiah Berlin remains one of the seminal political philosophers of the twentieth century. This book explains his enduring relevance as we face the challenges of the twenty-first.

The Liberty Amendments Mark R. Levin 2014-05-13 In his #1 bestsellers Liberty and Tyranny and Ameritopia, Mark R. Levin has all but predicted the current assault on our individual liberties, state sovereignty, and the social compact—the inevitable result of an all-powerful,

ubiquitous central government. Fortunately, such dire circumstances were anticipated by the Founding Fathers, who gave us the means to amend the Constitution in order to preserve our rights and prevent governmental behemoths. Here, Levin turns to the Constitution and its Framers to lay forth eleven specific prescriptions, thoughtfully constructed within the Framers' design, for restoring the American Republic. His proposals are pure common sense, ideas shared by many—such as term limits for members of Congress and Supreme Court justices and limits on federal taxing and spending—that draw on the wisdom of James Madison, Benjamin Franklin, Thomas Jefferson, and others. With The Liberty Amendments, the American people can take the first step toward reclaiming what belongs to them.

Summary of John Stuart Mill's On Liberty by Swift Reads Swift Reads

2019-07-09 On Liberty (1859) by John Stuart Mill is an influential philosophical treatise that argues societies can be free only when they celebrate diversity and promote individual freedom. Mill believed that conformity is a blight on human happiness, creativity, and social progress... Purchase this in-depth summary to learn more.

On Liberty (Annotated) John Stuart Mill 2015-11-19 One of history's most important political works. Mill declares that "over himself, over his own body and mind, the individual is sovereign". If you are interested in political philosophy - this is a must read!

The Tyranny of the Ideal Gerald Gaus 2019-01-08 In his provocative new book, *The Tyranny of the Ideal*, Gerald Gaus lays out a vision for how we should theorize about justice in a diverse society. Gaus shows how free and equal people, faced with intractable struggles and irreconcilable conflicts, might share a common moral life shaped by a just framework. He argues that if we are to take diversity seriously and if moral inquiry is sincere about shaping the world, then the pursuit of idealized and perfect theories of justice—essentially, the entire production of theories of justice that has dominated political philosophy for the past forty years—needs to change. Drawing on recent work in social science and philosophy, Gaus points to an important paradox: only those in a heterogeneous society—with its various religious, moral, and political perspectives—have

a reasonable hope of understanding what an ideally just society would be like. However, due to its very nature, this world could never be collectively devoted to any single ideal. Gaus defends the moral constitution of this pluralistic, open society, where the very clash and disagreement of ideals spurs all to better understand what their personal ideals of justice happen to be. Presenting an original framework for how we should think about morality, *The Tyranny of the Ideal* rigorously analyzes a theory of ideal justice more suitable for contemporary times.

Summary: American Marxism: Mark R. Levin Quick Savant 2022-05-02 Warning! This is a summary and illustrated study aid for Mark Levin's book, *American Marxism*. It is not the original book, but your thoughts and feelings about the United States and the rest of the world will change forever. There is so much to learn of the current state of affairs that is censored by the mainstream elites. Levin discusses how the problems he warned about in his "timely but timeless" book *Liberty and Tyranny* have come to pass. Levin's 2009 manifesto *Liberty and Tyranny* energized conservatives by offering a philosophical, historical, and practical foundation for stopping the liberal attack on Constitution-based principles. We were on the brink of losing our freedoms when that book came out, and we're still paying the price. With names like "progressivism," "democratic socialism," "social activism," and more, Levin shows how the basic components of Marxist ideology are now widespread in American society and culture. "Marxism" is synonymous with communism. As usual, Levin delves into these groups' psychology and methods, including extensive student indoctrination, the anti-American goals of Critical Race Theory and the Green New Deal, and the rise of repression and censorship to compel compliance. And he offers us some solutions and suggestions on how to face them. Communism means to destroy society and its identity forever and to steal its wealth. The goal is a totalitarian elite making up self-serving laws and policies. "The counter-revolution against the American Revolution is in full force," says Levin. Undeniable, it consumes our society and culture, permeating our politics, schools, media, and entertainment. Levin tries to mobilize Americans to preserve their liberties.

American Marxism Mark R. Levin 2021-07-13 #1 NEW YORK TIMES BESTSELLER The seven-time #1 New York Times bestselling author, Fox News star, and radio host Mark R. Levin explains how the dangers he warned against in the “timely yet timeless” (David Limbaugh, author of *Jesus Is Risen*) bestseller *Liberty and Tyranny* have come to pass. In 2009, Mark R. Levin galvanized conservatives with his unforgettable manifesto *Liberty and Tyranny*, by providing a philosophical, historical, and practical framework for halting the liberal assault on Constitution-based values. That book was about standing at the precipice of progressivism’s threat to our freedom and now, over a decade later, we’re fully over that precipice and paying the price. In *American Marxism*, Levin explains how the core elements of Marxist ideology are now pervasive in American society and culture—from our schools, the press, and corporations, to Hollywood, the Democratic Party, and the Biden presidency—and how it is often cloaked in deceptive labels like “progressivism,” “democratic socialism,” “social activism,” and more. With his characteristic trenchant analysis, Levin digs into the psychology and tactics of these movements, the widespread brainwashing of students, the anti-American purposes of Critical Race Theory and the Green New Deal, and the escalation of repression and censorship to silence opposing voices and enforce conformity. Levin exposes many of the institutions, intellectuals, scholars, and activists who are leading this revolution, and provides us with some answers and ideas on how to confront them. As Levin writes: “The counter-revolution to the American Revolution is in full force. And it can no longer be dismissed or ignored for it is devouring our society and culture, swirling around our everyday lives, and ubiquitous in our politics, schools, media, and entertainment.” And, like before, Levin seeks to rally the American people to defend their liberty.

Liberty from All Masters Barry C. Lynn 2020-09-29 Barry C. Lynn, one of America's preeminent thinkers, provides the clearest statement yet on the nature and magnitude of the political and economic dangers posed by America’s new monopolies in *Liberty from All Masters*. “Very few thinkers in recent years have done more to shift the debate in Washington than Barry Lynn.” —Franklin Foer Americans are obsessed with liberty, mad

about liberty. On any day, we can tune into arguments about how much liberty we need to buy a gun or get an abortion, to marry who we want or adopt the gender we feel. We argue endlessly about liberty from regulation and observation by the state, and proudly rebel against the tyranny of course syllabi and Pandora playlists. Redesign the penny today and the motto would read “You ain’t the boss of me.” Yet Americans are only now awakening to what is perhaps the gravest domestic threat to our liberties in a century—in the form of an extreme and fast-growing concentration of economic power. Monopolists today control almost every corner of the American economy. The result is not only lower wages and higher prices, hence a concentration of wealth and power in the hands of the few. The result is also a stripping away of our liberty to work how and where we want, to launch and grow the businesses we want, to create the communities and families and lives we want. The rise of online monopolists such as Google and Amazon—designed to gather our most intimate secrets and use them to manipulate our personal and group actions—is making the problem only far worse fast. Not only have these giant corporations captured the ability to manage how we share news and ideas with one another, they increasingly enjoy the power to shape how we move and play and speak and think.

<https://amzn.to/2LPXlbZ> Author and political commentator Mark Levin pulls no punches as he tears into the partisan American media for their dastardly deeds against the nation. He dives deep into the history of American media to show us just how low the press has fallen, and why Americans can no longer trust what they see and hear on the news. What

does this ZIP Reads Summary Include? - Synopsis of the original book - Key takeaways from each chapter - Examples of the intense liberal bias in the media - The history of biased media going back to the 18th century - Editorial Review - Background on Mark R. Levin About the Original Book: Americans no longer trust their media, and with good reason. The American press has turned on its own independent voices by pushing partisan agendas that are crippling the nation. This is the stinging diatribe that Mark Levin launches in his book, *Unfreedom of the Press*. He claims that the current media establishment is heavily involved with the Democratic Party in an attempt to unseat a sitting president. This so-called 'Democratic party-press' is busy tearing apart the nation's founding principles by creating fake news and pseudo-events instead of providing fair and balanced news reporting. Ultimately, Levin's goal is to trigger a dialogue among Americans on how to deal with the threat of a rogue, partisan media. **DISCLAIMER:** This book is intended as a companion to, not a replacement for, *Unfreedom of the Press*. ZIP Reads is wholly responsible for this content and is not associated with the original author in any way. Please follow this link: <https://amzn.to/2LPXlbZ> to purchase a copy of the original book.

Summary of American Marxism by Mark R. Levin Summary Guide 2021-07-27 PLEASE NOTE: This is an unofficial and independent summary of *Unmasked* and is meant to be read as a supplement, not a replacement. In 2009, Mark R. Levin galvanized conservatives with his unforgettable manifesto *Liberty and Tyranny*, by providing a philosophical, historical, and practical framework for halting the liberal assault on Constitution-based values. That book was about standing at the precipice of progressivism's threat to our freedom and now, over a decade later, we're fully over that precipice and paying the price. In *American Marxism*, Levin explains how the core elements of Marxist ideology are now pervasive in American society and culture--from our schools, the press, and corporations, to Hollywood, the Democratic Party, and the Biden presidency--and how it is often cloaked in deceptive labels like "progressivism," "democratic socialism," "social activism," and more. With his characteristic trenchant analysis, Levin digs into the psychology

and tactics of these movements, the widespread brainwashing of students, the anti-American purposes of Critical Race Theory and the Green New Deal, and the escalation of repression and censorship to silence opposing voices and enforce conformity. Levin exposes many of the institutions, intellectuals, scholars, and activists who are leading this revolution, and provides us with some answers and ideas on how to confront them. As Levin writes: "The counter-revolution to the American Revolution is in full force. And, like before, Levin seeks to rally the American people to defend their liberty.

Mill on Democracy Nadia Urbinati 2002-09 Despite John Stuart Mill's widely respected contributions to philosophy and political economy, his work on political philosophy has received a much more mixed response. Some critics have even charged that Mill's liberalism was part of a political project to restrain, rather than foster, democracy. Redirecting attention to Mill as a political thinker, Nadia Urbinati argues that this claim misrepresents Mill's thinking. Although he did not elaborate a theory of democracy, Mill did devise new avenues of democratic participation in government that could absorb the transformation of politics engendered by the institution of representation. More generally, Urbinati assesses Mill's contribution to modern democratic theory by critiquing the dominant "two liberties" narrative that has shaped Mill scholarship over the last several decades. As Urbinati shows, neither Isaiah Berlin's theory of negative and positive freedom nor Quentin Skinner's theory of liberty as freedom from domination adequately captures Mill's notion of political theory. Drawing on Mill's often overlooked writings on ancient Greece, Urbinati shows that Mill saw the ideal representative government as a "polis of the moderns," a metamorphosis of the unique features of the Athenian polis: the deliberative character of its institutions and politics; the Socratic ethos; and the cooperative implications of political agonism and dissent. The ancient Greeks, Urbinati shows, and Athenians in particular, are the key to understanding Mill's contribution to modern

democratic theory and the theory of political liberty. Urbinati concludes by demonstrating the importance of Mill's deliberative model of politics to the contemporary debate on liberal and republican views of liberty. Her fresh and persuasive approach not only clarifies Mill's political ideas but also illustrates how they can help enrich our contemporary understanding of democracy.

Summary of Josh Hawley's The Tyranny of Big Tech Milkyway Media 2021-06-21 Buy now to get the key takeaways from Josh Hawley's The Tyranny of Big Tech. Sample Key Takeaways: 1) Big Tech is managed by thieves who drain prosperity and power from society by creating an oligarchy. Consumers' personal data are extracted, tracked, and fed into a vast data machine to produce algorithms that manipulate users with advertisements tailored for them. This produces an online-addicted economy, with a never-ending cycle. 2) Corporate liberalism is taking over public philosophy, becoming accepted by the establishment of both major parties. This has made it more difficult to prove that concentrated power is detrimental, whether in government or private corporations. Liberty is threatened by the rise of monopolies and decline of an independent working class.

Summary of American Marxism by Mark R. Levin Wilson Walter 2022-01-08 With his iconic manifesto Liberty and Tyranny, published in 2009, Mark R. Levin rallied conservatives by providing a philosophical, historical, and practical foundation for reversing the liberal attack on constitutional values. That book was about standing on the edge of progressivism's threat to our freedom, and now, more than a decade later, we've crossed it and are paying the price. Levin explains how the core elements of Marxist ideology are now pervasive in American society and culture--from our schools, the press, and corporations to Hollywood, the Democratic Party, and the Biden presidency--and how it is often cloaked in deceptive labels like "progressivism," "democratic socialism," "social activism," and more--in his book American Marxism. Levin delves into the psychology and tactics of these movements, widespread student brainwashing, the anti-American goals of Critical Race Theory and the Green New Deal, and the escalation of repression and censorship to silence opposing voices and enforce conformity, all with his characteristic

trenchant analysis. Levin exposes many of the institutions, intellectuals, researchers, and activists in the forefront of this movement, as well as offering solutions and suggestions for dealing with them. "The anti-American Revolutionary War counter-revolution is in full swing," says Levin. And it can no longer be denied or ignored because it is consuming our society and culture, swirling around our daily lives and pervasive in politics, schools, the media, and entertainment." Levin also wants to urge the American people to protect their freedom, as he has in the past. Let's get started, By scrolling up and clicking "Buy Now" with a single click

Rediscovering Americanism Mark R. Levin 2017-06-27 From #1 New York Times bestselling author and radio host Mark R. Levin comes a searing plea for a return to America's most sacred values. In *Rediscovering Americanism*, Mark R. Levin revisits the founders' warnings about the perils of overreach by the federal government and concludes that the men who created our country would be outraged and disappointed to see where we've ended up. Levin returns to the impassioned question he's explored in each of his bestselling books: How do we save our exceptional country? Because our values are in such a precarious state, he argues that a restoration to the essential truths on which our country was founded has never been more urgent. Understanding these principles, in Levin's words, can "serve as the antidote to tyrannical regimes and governments." *Rediscovering Americanism* is not an exercise in nostalgia, but an appeal to his fellow citizens to reverse course. This essential book brings Levin's celebrated, sophisticated analysis to the troubling question of America's future, and reminds us what we must restore for the sake of our children and our children's children.

[Quicklet on Mark R. Levin's Ameritopia \(CliffNotes-like Summary and Analysis\)](#) Daniella Nicole 2012-07-30 ABOUT THE BOOK "I can't sit down long enough to write a book, and now I don't have to 'cause my buddy

Mark Levin new book is out called *Ameritopia: The Unmaking of America*. I don't have to write another book, at least not now." - Rush Limbaugh

Three years since the publication of his book, *Liberty and Tyranny: A Conservative Manifesto*, best-selling author and conservative radio talk show host, Mark R. Levin published *Ameritopia: The Unmaking of America*. In the book's introduction, Levin explains his reasoning for writing the book as a desire to answer certain questions regarding a utopian ideology he saw that "both attracts a free people and destroys them." He noted that great leaders and thinkers, such as Ronald Reagan, Abraham Lincoln, Joseph Story, and the Founding Fathers, "feared" such an ideology and recognized its "threat" and "destructiveness." His desire to pen *Ameritopia* spurred largely from the recent shift to incorporate said ideology of utopianism into the American life. Said shift added to an ever-widening gap between ideologies in American political parties. By the end of President George W. Bush's second term in office, there was a great deal of outrage from the liberal left and portions of the conservative right regarding various policies and actions. During the 2008 election season, a relatively unknown African-American Senator from Illinois named Barack Hussein Obama burst onto the scene as a challenger to Democratic presidential candidate, New York Senator, and former First Lady, Hillary Clinton. The possibility of the first African-American to be elected president was touted as a "historical moment," and many claimed to support him for just that reason -- to be part of history. Members of the audience fainted in more than one instance during Obama's campaign. What happened next sent ripples of shock through the nation. Not only did Obama win the Democratic nomination, but with virtually no vetting, he won the election for President on the promise of "Hope and Change." In 2009, Levin published his book *Liberty and Tyranny*, which compared the conservative and liberal viewpoints. Jeffrey Lord of *The American Spectator* claimed that the book was a "major political player" in the 2010 elections, which created sweeping changes in power across the country. A number of traditionally Democratic offices were defeated and won by Republicans. Lord also posited that Levin's *Ameritopia* would make an "explosive impact in 2012" following its predecessor, *Liberty and Tyranny*.

In his review of Ameritopia, Author David Limbaugh (brother to radio talk show host Rush Limbaugh) explained why the Utopian ideal is dangerous for America, perhaps stating better than Lord why the book could have an impact in the 2012 elections: EXCERPT FROM THE BOOK “[...] in Utopia, More creates the outline of a representative government structure. However, it is largely irrelevant, given the established dictates affecting minute details of daily life.” A Utopian society is created, with every conceivable problem addressed as those in charge strip away rights and emotional attachments from the people. Servants exist in this paradise and the kingdom itself is isolated from the rest of the world in order to protect itself from unwanted outside influences that could disrupt the ideal society. Families are routinely split up, because the state knows better than parents where children should live, what occupation they should pursue and how best, overall, to raise and educate them. Travel is controlled because papers (passports) are required by law in order for any travel, even inside the kingdom, to be permitted. ...buy the book to continue reading!

Over tirannie Timothy Snyder 2017-03-08 Direct na de Amerikaanse verkiezingen in november 2016 stelde historicus Timothy Snyder een lijst op van twintig aanbevelingen die van belang zijn als de democratie wordt bedreigd. Hij plaatste deze lijst op zijn Facebookpagina en het bericht ging direct viral. In Over tirannie werkt Snyder deze twintig lessen uit met concrete voorbeelden uit de geschiedenis. Hij waarschuwt ons dat wij niet wijzer zijn dan de Europeanen in de twintigste eeuw, die hun democratieën zagen zwichten voor fascisme, nazisme en communisme: bewegingen waarin één leider of één partij uitdrukking gaf aan de stem van het volk en beloofde de burgers te beschermen tegen bedreigingen van buitenaf. Ook in de huidige tijd lijkt het voortbestaan van de liberale democratie op het spel te staan. Niet eerder was de geschiedenis van de vorige eeuw zo actueel. Een voordeel is dat we kunnen leren van ervaringen uit het verleden om de opmars van tirannie te stuiten. TIMOTHY SNYDER is hoogleraar geschiedenis aan Yale University. Hij publiceerde de invloedrijke boeken Bloedlanden (2011) en Zwarte aarde (2015). In januari 2017 hield hij in Amsterdam de Nooit Meer Auschwitz-

lezing.

Summary: Nullification BusinessNews Publishing 2017-01-30 The must-read summary of Thomas E. Woods, Jr.'s book: “Nullification: How to Resist Federal Tyranny in the 21st Century”. This complete summary of "Nullification" by Thomas E. Woods, Jr., a prominent American historian and political commentator, presents his argument that it is time for states to take action that is within their power and reject unconstitutional federal laws. His political aim is to empower states to act against Obama's 'socialist' policies and big-government plans, and keep their citizens' wishes and interests in mind. Added-value of this summary: • Save time • Understand the process of nullification and the power it affords to American states • Expand your knowledge of American politics To learn more, read "Nullification" and discover how the nullification process hands power back to states and the people in the event of the government trying to pass unconstitutional federal laws.

The Age of Liberty Stephen R. Neely 2005-12-01 Born in the cradle of a new millennium, the turn of the twenty-first century was "the best of times and the worst of times"-our most dread fears come to life, our deepest faith in America resurrected. It was an age of the deepest sorrow and the greatest triumph, an age of new fears and old principles, an age of uncertainty and yet, an age of hope. From the uneasy tension of the Y2K scare and a bitterly contested election, to the pain and fear of a dark September morning, the dawn of the century was a tumultuous age. Frenzied terror alerts, mounting deficits, and the loss of the Space Shuttle Columbia reminisced to an era of Cold War and doubt, and yet for all of its fear and uncertainty, the early twenty-first century was also an age of American triumph. Amidst the rubble of September 11th, we found purpose and unity, heroism and courage. We witnessed a generous and benevolent nation answer the calling of a new age, a mighty and just nation answer the challenge of a new tyranny. The Age of Liberty is a critical analysis of the most challenging and exciting issues that defined the early twenty-first century and will continue to define it in the days to come.

Liberalism and the Culture of Security Katherine Henry 2011-03-05

Normal0falsefalsefalseMicrosoftInternetExplorer4 Figures of protection and security are everywhere in American public discourse, from the protection of privacy or civil liberties to the protection of marriage or the unborn, and from social security to homeland security. Liberalism and the Culture of Security traces a crucial paradox in historical and contemporary notions of citizenship: in a liberal democratic culture that imagines its citizens as self-reliant, autonomous, and inviolable, the truth is that claims for citizenship—particularly for marginalized groups such as women and slaves—have just as often been made in the name of vulnerability and helplessness. Katherine Henry traces this turn back to the eighteenth-century opposition of liberty and tyranny, which imagined our liberties as being in danger of violation by the forces of tyranny and thus in need of protection. She examines four particular instances of this rhetorical pattern. The first chapters show how women’s rights and antislavery activists in the antebellum era exploited the contradictions that arose from the liberal promise of a protected citizenry: first by focusing primarily on arguments over slavery in the 1850s that invoke the Declaration of Independence, including Harriet Beecher Stowe’s fiction and Frederick Douglass’s “Fourth of July” speech; and next by examining Angelina Grimké’s brief but intense antislavery speaking career in the 1830s. New conditions after the Civil War and Emancipation changed the way arguments about civic inclusion and exclusion could be advanced. Henry considers the issue of African American citizenship in the 1880s and 1890s, focusing on the mainstream white Southern debate over segregation and the specter of a tyrannical federal government, and then turning to Frances E. W. Harper’s fictional account of African American citizenship in *Iola Leroy*. Finally, Henry examines Henry James’s 1886 novel *The Bostonians*, in which arguments over the appropriate role of women and the proper place of the South in post-Civil War America are played out as a contest between Olive Chancellor and Basil ransom for control over the voice of the eloquent girl Verena Tarrant.

Summary: Liberty and Tyranny BusinessNews Publishing 2017-01-30
The must-read summary of Mark R. Levin's book: “Liberty and Tyranny: A Conservative Manifesto”. This complete summary of "Liberty and

Tyranny" by Mark R. Levin, a renowned American lawyer and author, presents his argument in a manifesto for the conservative movement for the 21st century that it is time to revitalize the conservative vision in order to preserve American society. Added-value of this summary: • Save time • Understand conservatism and liberalism in the context of American society • Expand your knowledge of American politics and culture To learn more, read "Liberty and Tyranny" and discover Levin's view that conservatism is necessary to the preservation of American society.
Big Data's Threat to Liberty Henrik Skaug Saetra 2021-08-13 Big Data permeates all aspects of modern life, and while there is no shortage of potential benefits resulting from this, author Henrik Skaug Sætra argues that we must also understand the threats Big Data poses to liberty. The issues discussed in *Big Data’s Threat to Liberty: Surveillance, Nudging, and the Curation of Information* are related to how we are constantly under surveillance. Data is gathered from our homes, our cars, our smartphones, various devices around the house, and public sources such as facial recognition enabled camera surveillance and various websites and social networks. Furthermore, the information gathered is used to influence our actions. Detailed personality profiles are utilized in order to make us purchase products and services, or pay our taxes, through tailor-made nudges aimed at irrational and subconscious mechanisms, and delivered with a level of precision only possible with Big Data-driven algorithmic curation of data. Finally, the information we receive through various media is curated by algorithms, and even people are curated in order to satisfy our desires. By providing us with what the algorithm believes we want, we are spared from the exposure of unpleasant information, and even unpleasant people. The ideological landscapes we traverse are thus characterized by conformity, and a concomitant tyranny of popular opinion becomes ever more coercive as this occurs. The question is: How does being constantly watched, manipulated, and having our world-views shaped as just described affect our freedom? In this book it is argued that Big Data’s threat to individual liberty is routinely misunderstood and underappreciated due to (a) vagueness resulting from the concept of liberty being used without it being defined, or (b) the use

of definitions based on flawed understandings of what liberty is. In this new and unique contribution to the ethics of Big Data and artificial intelligence, both these challenges are thoroughly addressed. Explanation of key Big Data-related technologies and how they affect modern society, including explanation of surveillance technologies and nudging algorithms, and how Big Data, Machine Learning, and Artificial Intelligence algorithms are used to tailor and mold opinion. Conceptualization of the term liberty, making the concept tangible, as a clear understanding of various forms of liberty enables a proper debate about the effects of technology on liberty, and a debate about what sort of liberty we value. A thorough technical explanation of how Big Data influences individuals by way of surveillance that allows for detailed personality profiles, nudging, and the algorithmic curation of information.

On Liberty John Stuart Mill 2014-09-09 THE COMPLETE CLASSIC - On Liberty by John Stuart Mill. John Stuart Mill opens his essay by discussing the historical "struggle between authority and liberty," describing the tyranny of government, which, in his view, needs to be controlled by the liberty of the citizens. He divides this control of authority into two mechanisms: necessary rights belonging to citizens, and the "establishment of constitutional checks by which the consent of the community, or of a body of some sort, supposed to represent its interests, was made a necessary condition to some of the more important acts of the governing power." Because society was-in its early stages-subjected to such turbulent conditions (i.e. small population and constant war), it was forced to accept rule "by a master." However, as mankind progressed, it became conceivable for the people to rule themselves. Mill admits that this new form of society seemed immune to tyranny because "there was no fear of tyrannizing over self." Despite the high hopes of the Enlightenment, Mill argues that the democratic ideals were not as easily met as expected. First, even in democracy, the rulers were not always the same sort of people as the ruled. Second, there is a risk of a "tyranny of the majority" in which the many oppress the few who, according to democratic ideals, have just as much a right to pursue their legitimate ends. In Mill's view, tyranny of the majority is worse than tyranny of government because it is not limited to a political function. Where one can be protected from a tyrant, it is much harder to be protected "against the tyranny of the prevailing opinion and feeling." The prevailing opinions within society will be the basis of all rules of conduct within society; thus there can be no safeguard in law against the tyranny of the majority. Mill's proof goes as follows: the majority opinion may not be the correct opinion. The only justification for a person's preference for a particular moral belief is that it is that person's preference. On a particular issue, people will align themselves either for or against this issue; the side of greatest volume will prevail, but is not necessarily correct. In conclusion to this analysis of past governments, Mill proposes a single standard for which a

person's liberty may be restricted: That the only purpose for which power can be rightfully exercised over any member of a civilized community, against his will, is to prevent harm to others. His own good, either physical or moral, is not a sufficient warrant . . . Over himself, over his body and mind, the individual is sovereign.

Notes on Freedom Glenn Mitchell 2000 A study of the continued importance of Cato's letters and how they continue to be relevant to the modern struggle between individual rights and centralized government.

Beyond Liberty and Property J. Gunn 1983-07-01 The themes explored include political liberty, "legal tyranny," defences of influence in government, recognition of the Opposition, and the development of organic categories of political analysis - the latter in a chapter that explodes the association often presumed between organicism and conservative modes of thought. A chapter on the "Fourth Estate" examines the gradual process of legitimation of "interests," culminating in the influence of the press. Central to the account of new political forces and their recognition is the idea of public opinion, which evolved during this period from the notion of public spirit. Chapters on the classical legacy of the century and on the High-Tories examine two backward-looking aspects of the political culture. Tracing the persistent influence of High-Toryism, Gunn questions the conventional wisdom about eighteenth-century ideological consensus in general and Whig solidarity in particular. He demonstrates that theories of government from the seventeenth century survived to a degree not previously admitted by modern scholarship.

Summary of On Tyranny Alexander Cooper 2021-10-31 Summary of On Tyranny - A Comprehensive Summary Chapter 1: Do Not Obey in Advance Anticipatory obedience is the tendency of a newly defeated population to anticipate what the new leaders want and then to adapt their behavior to this perceived requirement, often even pre-empting the plans of the new regime. After the Nazis won power in 1932, and when the communist government won the Czechoslovakian elections in 1946, the new governments may have been surprised at how quickly and easily the citizens were willing to extend their services to the new regimes. By

taking quick action to harness the communities' willingness to conform, the leaders were able to cement the change. "Most of the power of authoritarianism is freely given. In times like these individuals think ahead about what a more repressive government will want, and then offer themselves without being asked. A citizen who acts in this way is teaching power what it can do." To be continued... Here is a Preview of What You Will Get: - A Full Book Summary - An Analysis - Fun quizzes - Quiz Answers - Etc. Mill and the Moral Character of Liberalism Eldon J. Eisenach 2010-11-01

Summary: Liberty Defined BusinessNews Publishing 2017-01-30 The must-read summary of Ron Paul's book: "Liberty Defined, 50 Essential Issues that Affect our Freedom". This complete summary of "Liberty Defined" by Ron Paul, bestselling author and former politician, presents his argument that the liberty mentioned in the Declaration of Independence is not truly respected by any party hence that there is a need to embrace an agenda that does free the American citizens. He suggests ways of recognising tyranny even when it is presented to us disguised as a form of liberty. Added-value of this summary: • Save time • Understand issues surrounding personal freedom and state control • Expand your knowledge of American politics and society To learn more, read "Liberty Defined" and discover how government control can endanger citizens' personal freedoms.

Theories of Tyranny, from Plato to Arendt Roger Boesche 1996 Ch. 10 (pp.

381-454), "Fromm, Neumann, and Arendt: Three Early Interpretations of Nazi Germany", discusses the views of Franz Neumann and Hannah Arendt on Nazi antisemitism. Neumann, in his "Behemoth" (1942), stated that the Nazis needed a fictitious enemy in order to unify the completely atomized German society into one large "Volksgemeinschaft". The terrorization of Jews was a prototype of the terror to be used against other peoples. Arendt contends in "The Origins of Totalitarianism" (1951) that it was imperialism which brought about Nazism, Nazi antisemitism, and the Holocaust. Totalitarianism is nothing but imperialism which came home. Insofar as imperialism transcends national boundaries, racism may be very helpful for it, because racism proposes another principle to define the enemy. Jews and other ethnic groups (e.g. Slavs) became easy targets as groups whose claims clashed with those of the expanding German nation. Terror is the essence of totalitarianism, and extermination camps were necessary for the Nazis to prove the omnipotence of their regime and their capability of total domination.

Democracy is Dangerous John Lugton Safford 2002 Identifying liberty, equality, and order as the three basic political values in American life, Safford (government and philosophy, U of South Carolina at Sumter) argues that there is a danger for the latter two to endanger political liberty. He argues for the elevation of liberty as the primary political value and contends that capitalist limited democracy is the best way to promote political liberty.
