The Layperson's Guide to Exercise, Diet & Supplements Daniel J. Shamy 2013-04 We instinctively know that exercise, eating the right things, and taking vitamins sustains our health, maintains our youth, and offers a sense of wellbeing. Traditional fitness publications do a great job telling you what to do, but lack any explanation as to the why and how. They offer a map to youth by micromanaging your diet, exercise and or supplements. You blindly follow their lead in expectation of finding your fountain of youth through their training. Every body is different, which is why one map may work for one person, but not another; maybe it failed you, so you try another. What you may not realize is that although they offer step by step instruction to find the fountain, they are not teaching you how to read the map. Although the map is the same, the directions are different for each of us to find the fountain of youth. The difference between the layperson and expert is their ability to read the map as a whole; that map is our anatomy. That cartography lesson is learned by teaching you how exercise, diet and supplements work rather than being told what in the same to follow. At the end of the lesson, you may now understand that your journey may require parts of many methods, rather than the single direction of one. The author shares his own journey as he teaches you how to read the map, so you understand how one has successfully read the map to discover his fountain of youth.

Persuasion Robert H Gass 2022-04-07 The seventh edition of this field-leading textbook provides an accessible and rigorous presentation of major theories of persuasion and their applications to a variety of real-world contexts. In addition to presenting established theories and models, this text encourages students to develop and apply general conclusions about persuasion in real-world settings. Along the way, students are introduced to the practice of social influence in an array of contexts (e.g., advertising, marketing, politics, interpersonal relationships, social media, groups) and across a variety of topics (e.g., credibility, personality, deception, motivational appeals, visual persuasion). The new edition features expanded treatment of digital and social media; up-to-date research on theory and practice; an increased number of international cases; and new and expanded discussions of topics such as online influencers, disinformation and 'fake news,' deepfakes, message framing, normative influence, stigmatized language, and inoculation theory. This is the ideal textbook for courses on persuasion in communication, psychology, advertising, and marketing programs. Instructors can also use the book's downloadable test bank, instructor's manual, and PowerPoint slides in preparing course material.

Best Before James Newman 2012 Best Before examines how the videogames industry's retail, publishing, technology design, advertising and marketing practices actively produce obsolescence, wearing out and retiring old games to make way for the always new, just out of reach, 'coming soon' title and 'next generation' platform.

How To Regulate Thomas A. Lambert 2017-08-31 Markets sometimes fail. But so do regulatory efforts to correct market failures. Sometimes regulations reach too far, condemning good activities as well as bad, and sometimes they don't reach far enough, allowing bad behavior to persist. In this highly instructive book, Thomas A. Lambert explains the pitfalls of both extremes while offering readers a manual of effective regulation, showing how the best regulation maximizes social welfare and minimizes social costs. Working like a physician, Lambert demonstrates how regulators should diagnose the underlying disease and identify its symptoms, potential remedies for it, and their side effects before selecting the regulation that offers the greatest net benefit. This book should be read by policymakers, students, and anyone else interested in understanding how the best regulations are crafted and why they work.
